

# GodMode Folder

Follow these steps to create a folder that will give you access to all the settings in Windows.

1. On the Windows desktop right-click and select New > Folder

2. Next, Right-click the folder and select Rename

3. Rename the folder to:

GodMode.{ED7BA470-8E54-465E-825C-99712043E01C}

4. After renaming the folder the icon will change and look like the same icon used for the Control Panel.

5. When you open the renamed folder, you will see all the Window's settings inside.

- ✓ **Administrative Tools (12)**
